Thank you for purchasing our app. If you have any questions that are beyond the scope of this help file, please feel free to contact via email. Thank you so much!

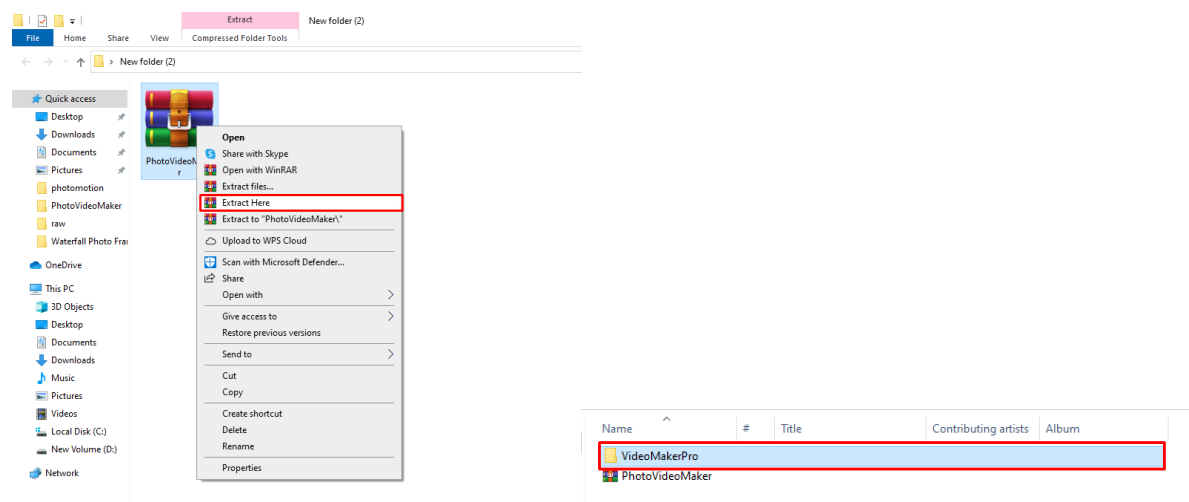

Step 1 : Which Android Studio version is needed?

Latest Android Studio version is recommended.

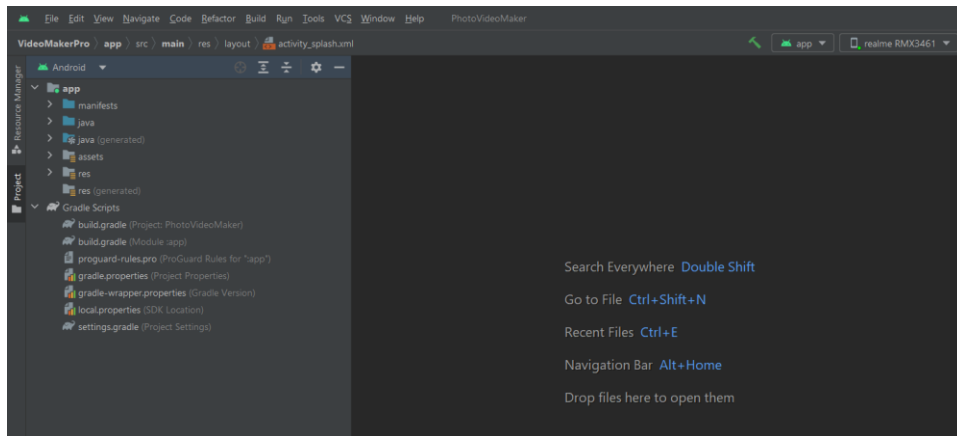

Step 2 : How to Open The Project in Android Studio?

1. Unzip Project Folder.

2. Open Android Studio > Open an Existing Android Studio Project > Select Your Project > ok.

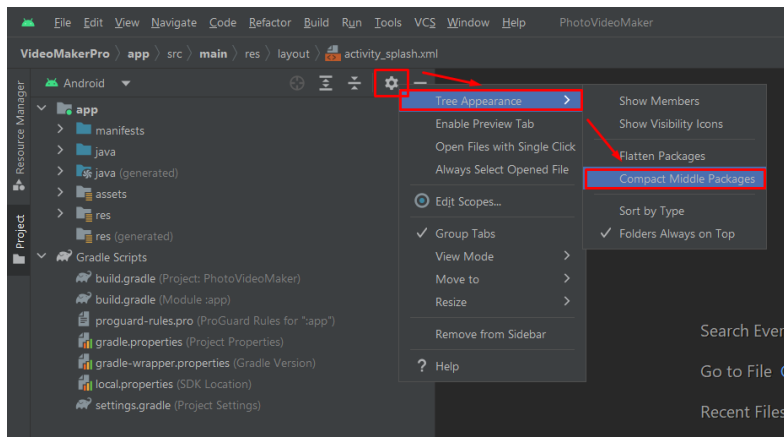

3. Wait for Gradle Process.

4. Click on Run and install.

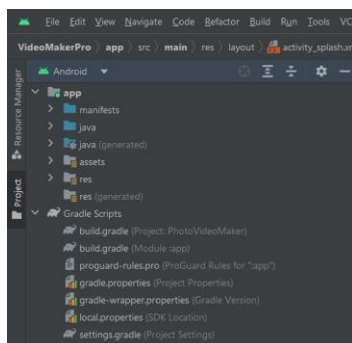

Step 3 : How to change the package name?

You can change it easily from Android Studio. Here are the steps:

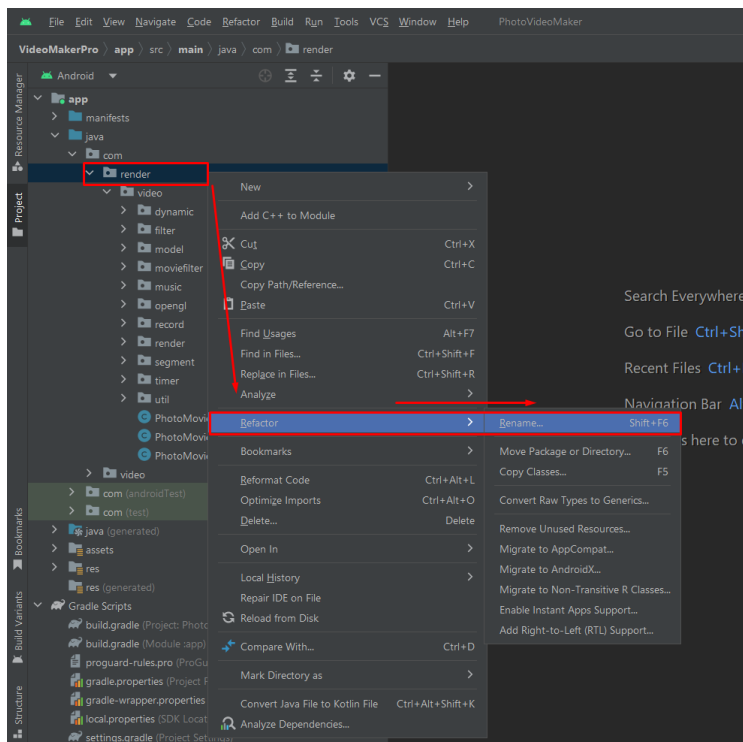

1. In the Project pane, click on the little gear icon. Uncheck/Deselect the Compact Empty Middle Packages option.

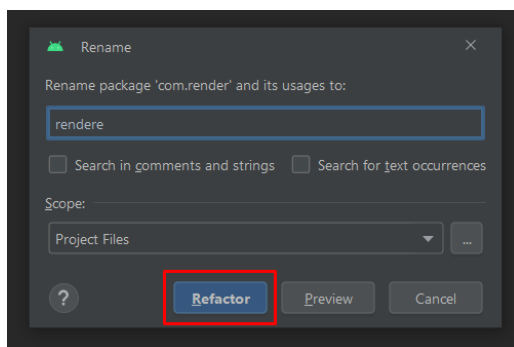

2. Your package directory will now be broken up in individual directories.

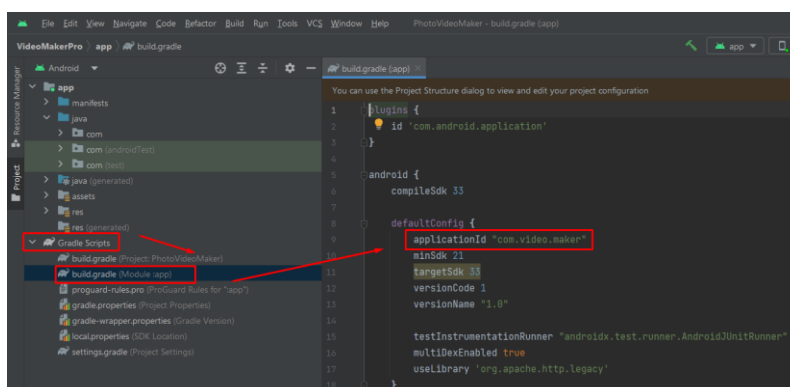

3. Individually select each directory you want to rename, and: Right-click it Select Refactor Click on Rename In the Pop-up dialog.

4. Click on Rename Package instead of Rename Directory Enter the new name and hit Refactor Allow a minute to let Android Studio update all changes.

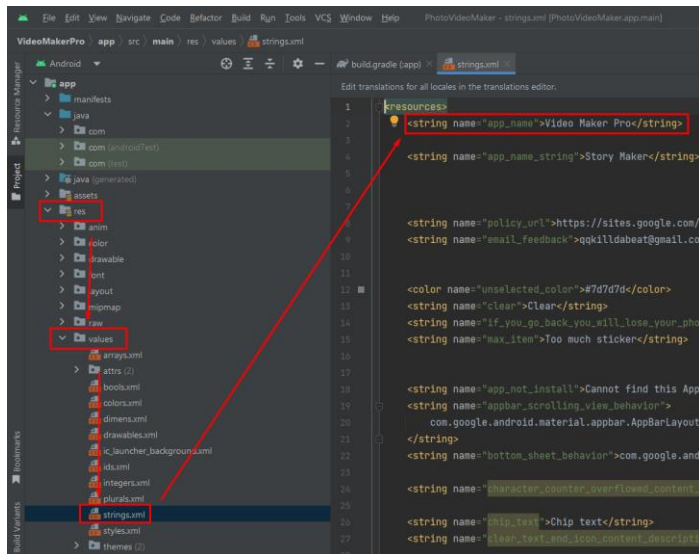

5. Now open your build.gradle (Usually 'app' or 'mobile'). Update the application Id to your Package Name and Sync Gradle, if it hasn't already been updated automatically.

Step 4 : How to change app name?

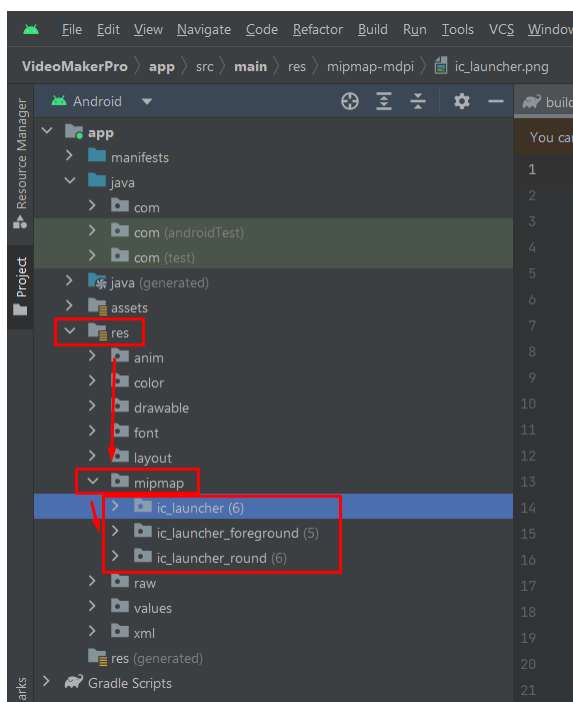

1. Open Android Studio >render> res > values > strings.xml.
2. Enter your app name inside "app_name" string tag:

<string name="app_name"> Video Maker Pro </string>

Step 5 : How to Change Application Icon?

1. Open Android Studio > app > res >.
2. Replace your icon with ic_launcher.png and paste in all mipmap folders.

Step 6 : How to change admob id's?

1. Open Android Studio App Locker > res > values > strings.xml.

2. Enter your admob app id inside "admob_app_id" string tag:

```
<string name="mobile_ad_id"> ca-app-pub-3940256099942544~6300978111 </string>
```

3. Enter your admob banner id inside " admob_banner_id" string tag:

```
<string name="banner_id"> ca-app-pub-3940256099942544/6300978111 </string>
```

4. Enter your admob interstitial id inside "admob_interstitial" string tag:

```
<string name="full_id"> ca-app-pub-3940256099942544/1033173712 </string>
```

5. Enter your admob interstitial id inside "admob_native" string tag:

```
<string name="native_ad"> ca-app-pub-3940256099942544/1033173712 </string>.
```

Step 7 : How to change AppLovin(MAX) ad id's?

1. Open Android Studio App Locker > res > values > strings.xml.

2. Enter your maxbanner id inside " max_banner" string tag:

```
<string name="max_banner">51d8a9e4e8b888cd</string>
```

3. Enter your max interstitial id inside "max_interstitial" string tag:

```
<string name="max_interstitial">c27ccdddaa93ad05</string>
```

4. Enter your maxinterstitial id inside "max_native" string tag:

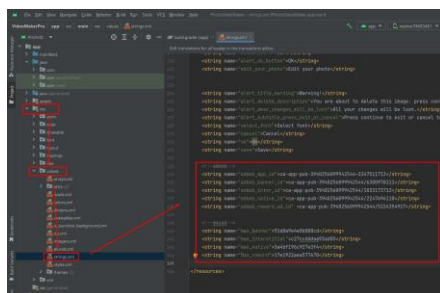

```
<string name="max_native">5a4bf196c927e3f4</string>
```

5. Enter your max rewrodad id inside "max_reword" string tag:

```
<string name="Max_reword">17e1922aea577670</string>
```

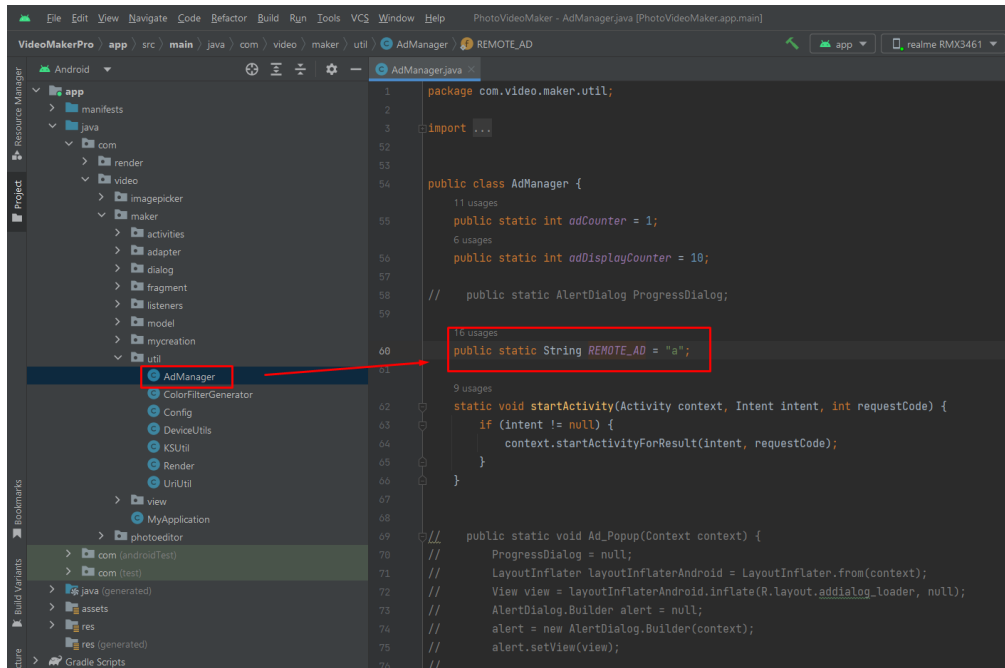

Note : Login with Applovin account and follow this below link for fb bidding ads with AppLovin(MAX)

<https://dash.applovin.com/documentation/mediation/android/mediation-setup/facebook>

Step 8 : How to enable/disable AppLovin ad & admob ad?

1. For Admob ad set variable to “a” and for Applovin Max ad set variable to “f”.

Thank you so much for purchasing this Android App. As I said at the beginning, I'd be glad to help you if you have any questions relating to this Android App. No guarantees, but I'll do my best to assist. If you have a more general question relating to the app please send mail us on "kessiinfotech@gmail.com"
